

Additional Information

Doncaster CAMHS also responds to emergency and urgent referrals by way of immediate assessment due to the severity of presentation associated with a young person being at risk to themselves or others. This includes e.g.

- young people who are actively suicidal
- presentation of an eating disorder
- those severely depressed and/or in need of crisis assessment and/or intensive treatment or in-patient admission
- Deliberate self-harm and presentations are seen at accident and emergency
- Symptoms of psychosis causing distress and requiring urgent intervention
