Your Ref: Council Tax Annual Bill

Date: 11 March, 2021

Dear Taxpayer,

Notice of correction - Council Tax annual bill for the financial year 2021/22

It has been identified that there is a misprint on the Council Tax annual bills issued to all taxpayers dated 1 March 2021.

This means that some of the percentage increases showing the change from 2020/21 to 2021/22, are incorrect. In accordance with Section 7(2) of the Council Tax (Demand Notice)(England) Regulations 2011 (as amended), please find below the required corrections to the information shown on that bill.

The correct percentage increase information is as follows:

- The DMBC Council Tax increase that should have been shown for the current financial 2021/22 is 1.4%.
- The Adult Social Care Precept increase that should have been shown for the current financial year 2021/22 is 1.5%.

As supporting information these do not change the calculated annual charge and instalments due. Your bill remains valid and your instalments remain payable in line with your bill.

Please accept our apologies for any confusion caused by this error.
