**Flood Depth (m)**

- 0.01 - 0.5
- 0.5 - 1
- 1 - 1.5
- > 1.5

**Note:**  
 These maps show fluvial flood depth variations for a defended floodplain (1 in 2year Standard of Defence) with a 1 in 100year (1%) flood flow plus a 20% increase in flood flow (i.e. climate change).

This map does not include tidal flooding.

This map should be considered in support of the Environment Agency Flood Zone Maps to aid the Sequential and Exception Tests. It should not be considered in isolation without reference to the other SFRA Flood Risk Maps. Please see the Section 3 of the SFRA for further details.
