Good Morning Helen,

Apologies for not responding sooner, I have read the SEA/HRA Screening of the Burghwallis Neighbourhood Plan and can confirm that Natural England concurs with its conclusions. The plan does not set development targets or locations instead focussing on: the protection of green infrastructure, built heritage, and community assets; improvements in design quality. It is also in conformity with the adopted Core Strategy (which itself has undergone SEA and HRA). Therefore it does not require an SEA or HRA.

Regards

John

Dear Craig / Bev / John

Further to the email below, sent on the 14th May 2015 requesting a consultation response in respect of the attached screening document, I have not had a response from you yet. Please can you look at the attached document and respond within the next two weeks (by the 25th June 2015) so the parish council can progress with the next stage of their neighbourhood plan process.

On a positive note, I believe it will only take a few minutes of your time. I look forward to your response and if you have any questions do not hesitate to contact me.

Kind Regards

Helen

Dear Craig / Bev / John

Please find attached a copy of a draft response in respect of a request for a screening opinion for a Neighbourhood Plan Document prepared for the Parish of Burghwallis in Doncaster. Not to pre-empt your respective responses, but I have found the plan itself a pleasure to read. The emphasis of the plan is the protection, conservation and enhancement of the Parish, with no proposals put forward for development.

Please take a look at the attached document. Your response would be greatly appreciated. There is a section where you can add your response directly and I hope to hear back from you within the next couple of weeks.

A copy of the Neighbourhood Plan can be found here:

And further information can also be found here:

If you require any further information please do not hesitate to contact me

Kind Regards
Helen
