Pathways to Progression

Helping young people into education, employment or training

Information for parents, carers and professionals
About the programme

Pathways to Progression is a new programme designed to support young people in Doncaster to realise their potential and help them understand the steps to take to achieve their chosen career.

We work with young people who are:
• Aged 16 to 18
• Living in Doncaster
• Not in education, employment or training

How we support our young people?

Everyone’s career aspirations are different. That’s why we work with our young people on a one to one basis to provide the best support to help take those first steps towards their future.

We will listen and spend time getting to know a young person’s interests and passions and will work to create a personalised action plan to help achieve agreed goals.

Why join the programme?

Through Pathways to Progression we will:
• Build tailored support for someone who is struggling to help achieve their career goals
• Develop an understanding of the workplace, employer expectations, rights and responsibilities
• Work at a young person’s pace, to create goals that will suit their needs

The journey starts here

Pathways to Progression is open to all young people who meet the above criteria. A young person, parent, carer or professional can refer to the programme by simply contacting the team today:

About us

Pathways to Progression are a small team of qualified and experienced Career Advisers. Together we work to support our young people and boost self-esteem to help reduce youth unemployment within Doncaster. We are local so we understand what opportunities are available on your doorstep.
Get in touch

We are available Mondays – Fridays from 9am - 5pm.
