INSPECTOR’S NOTE NO. 5: PROVISIONAL HEARING PROGRAMME AND PARTICIPATION AT HEARING SESSIONS

Introduction

This note sets out a provisional programme for the examination hearing sessions, deadlines for the submission of written statements in response to the matters, issues and questions that I published on 11 June, and important information about potential participation at hearing sessions.

Provisional Hearing Programme

As previously advised, provisional arrangements were made some time ago to hold hearing sessions at Doncaster Civic Office in the autumn. However, when and how the hearing sessions take place is dependent on legislation and Government guidance in response to the coronavirus pandemic.

The following provisional timetable for the hearing sessions has now been agreed with the Council:

- Week 1: Wednesday 14th to Friday 16th Oct
- Week 2: Tuesday 20th to Thursday 22nd Oct
- Week 3: Tuesday 3rd to Thursday 5th Nov
- Week 4: Wednesday 11th to Friday 13th Nov

The attached annex includes a provisional programme, setting out the date on which each matter is expected to be discussed.

The hearing sessions are currently due to be held in the Council Chamber, with participation being by either physically attending, joining online using Microsoft Teams, or by phone. The hearing sessions are public events and will be available to view on the Council’s website. This will be the main means of observing the sessions as there is unlikely to be capacity for non-participants to attend.

Details of how the hearings will operate having regard to the latest legislation and guidance will be set out in a note to be published on the examination website in due course. If that legislation and/or guidance changes prior to or during the programmed hearing sessions, procedures may need to be changed.
Participants

When I published my examination matters, issues and questions on 11 June, I asked all those who made representations under regulation 20 seeking to change the Plan to let the Programme Office know by midday on 3 July if they wished to exercise their right to be heard. I also asked those with a right to be heard to let the Programme Officer know which matter (or matters) they would like to participate in.

The attached annex lists all of the requests received by the Programme Officer. As can be seen, there are a large number of requests from representors to participate in several of the sessions. This is particularly so for matters 1-6, with around 50 requests for some of those sessions.

In normal times, the number of participants at any one hearing session should not exceed 20 wherever possible, and around 25 participants is usually regarded as a maximum. Experience has shown that any larger number makes it difficult for the Inspector to probe the evidence adequately, and for participants to contribute effectively.

At this stage, I am expecting it to be necessary to limit the number of participants at any session to 20. This will be to ensure that social distancing in the Council Chamber can be achieved, and that any participation made online or by phone can be effectively undertaken in a way that is fair to all.

Clearly, therefore, all of the requests to participate for several matters cannot be accommodated, unless I hold some duplicate sessions. This is not the most efficient way for me to examine the plan, and I wish to avoid it if I can. If I do have to hold duplicate sessions for any matters, additional dates will have to be added to the provisional programme which is likely to affect the dates on which other matters are considered.

Those that made representations under regulation 20 seeking to change the plan have a right to be heard. However, this does not mean that they have a right to attend more than one session. As far as possible, I will seek to accommodate those who consider it essential to participate in any particular matter. But this may not be possible in all cases, and if necessary, I will allocate places in a way that will be most helpful to me in deciding if the plan is sound and if not how it should be modified to ensure that it is.

Before I do that, I am asking all potential participants listed in the attached annex to consider and respond to the following:

- Is it essential for you to participate for each matter that you have indicated, bearing in mind that you can submit a written statement and that I will give those the same weight as comments made orally?
- If you do consider it necessary to participate in more than one matter, list them in priority order.
- If you do consider it necessary to participate in one or some issues, but not others, under a matter, specify what those are.
- Companies that are included more than once for a matter, consider appointing a single spokesperson.
- If there are representors who have similar views, consider appointing a single spokesperson.
- As far as you know at this stage, do you think that you will want to participate by attending the venue, joining online or by phone?

---

Please respond in writing to the Programme Officer by **midday on Wednesday 29 July 2020.**

**Written statements**

Now that the provisional hearing programme has been announced, I am setting deadlines for written statements in response to my matters, issues and questions. They are as follows:

- **Midday Wednesday 2 September** for statements for matters to be heard in weeks 1 and 2.
- **Midday Wednesday 16 September** for statements for matters to be heard in weeks 3 and 4.

Written statements must be received by the Programme Officer by these deadlines, and adhere to the guidance set out in Annex 1 attached to INSP4 published on 11 June.

**Next steps**

When I have considered the responses about participation requested above, I will publish a list of participants for each matter and, if necessary, a revised hearing programme. I hope to do that by the middle of August.

If you have any queries about this note, please contact the Programme Officer.

**William Fieldhouse**
